

Gavi's mid-term review (MTR) conference will be hosted by the United Arab Emirates in Abu Dhabi on 10–11 December 2018.

The high-level meeting will celebrate 700 million people immunised and 10 million lives saved since Gavi's inception and review progress against the 2016–2020 investment case.

Over 200 participants are expected to come to Abu Dhabi, including senior representatives from donor and Gavi-supported countries, partner organisations, civil society, and innovators from the pharmaceutical industry and other sectors.

— 2016–2020 period —
300 million people immunised
5–6 million lives saved
US\$ 80–100 billion in economic benefits

Gavi's impact: timeline

♣ = 1 million people immunised

MTR

700 million people immunised in 18 years

→ 10 million future lives saved

MTR OBJECTIVES

Participants in the MTR will examine Gavi's results, three years into the current 2016–2020 cycle and 18 years after the Alliance was established.

- Report back to donors on the progress made toward fulfilling promises set out in the '2016–2020 investment opportunity'
- Provide an opportunity for donors and partners to demonstrate their continued support
- Give countries an opportunity to showcase progress and share challenges
- Show how private sector expertise is delivering innovative solutions to advance global immunisation
- Work with our stakeholders to begin shaping Gavi's future vision

Gavi will produce an MTR document which will report on its results to date. This will help to lay the foundation for discussions in Abu Dhabi.

THE 2016–2020 INVESTMENT OPPORTUNITY

At Gavi's 2015 pledging conference, hosted by Germany's Chancellor Angela Merkel in Berlin, donors pledged US\$ 7.5 billion over five years to support the main objectives in the '2016–2020 investment opportunity':

- Immunise 300 million additional children, resulting in: 5–6 million lives saved and economic benefits totalling US\$ 80–100 billion
- Finish the job of introducing pneumococcal and rotavirus vaccines
- Support the transition of more than 20 Gavi-supported countries to fully fund their immunisation programmes
- Make sure all countries are co-financing their vaccine programmes
- Ensure healthy vaccine markets, with sufficient and secure supply of vaccines suitable for Gavi-supported countries at affordable prices

HOW PARTNERS CAN CONTRIBUTE

We encourage all Vaccine Alliance partners and stakeholders – country representatives, donors, technical partners, civil society organisations, private sector partners – to engage with Gavi throughout the run-up to the MTR.

Together, your contribution can help build momentum towards Abu Dhabi, whether by advocating for Gavi's mission, feeding into the development process or raising awareness of the Alliance's impact around the world.

SUCCESSES & CHALLENGES

Gavi's multimedia website gotlife.gavi.org highlights the impact of the Alliance's unique business model.

Drawing on country successes and challenges, the site showcases innovative solutions to immunisation challenges and demonstrates how our work has a global impact beyond vaccination.

Got vaccines?
Got life!

“ We see this event as a great opportunity to celebrate 10 million lives saved, conduct the mid-term review and look to the years ahead.

UAE Minister of State for International Cooperation, HE Reem Al Hashimy

“ The mid-term review will not only reflect on our results in the past years, it will also help shape the future of Gavi's innovative model.

Dr Seth Berkley, Gavi CEO
