

Subject	Collaboration with the Global Fund
Agenda item	15
Category	For Information

Following the Joint Technical Briefing on 30 June, the Gavi and Global Fund Secretariats will provide a **debrief at their respective Board meetings** in early July, summarising the feedback received to date, and outlining proposed next steps.

The purpose of each individual Board session is not to revisit the detailed content covered during the Joint Technical Briefing, but rather to build on that discussion and support alignment. **This session will provide Board members with an opportunity for a forward-looking exchange and to share any additional guidance** that may be valuable as the collaboration moves into implementation.

For detailed materials related to the Gavi–Global Fund collaboration, Board members are invited to refer to the **documentation shared in advance for the Joint Technical Briefing**.
