If the country is reporting on ISS, INS, NVS support

We, the undersigned members of the Inter-Agency Co-ordinating Committee endorse this report. Signature of endorsement of this document does not imply any financial (or legal) commitment on the part of the partner agency or individual.

Financial accountability forms an integral part of GAVI Alliance monitoring of reporting of country performance. It is based on the regular government audit requirements as detailed in the Banking form.

The ICC Members confirm that the funds received from the GAVI Funding Entity have been audited and accounted for according to standard government or partner requirements. (APR endorsed by ICC after submission due lack of quorum when report was ready for dispatch; NIDs took most of ICC members out of Juba; meeting only possible after NIDs; ICC endorsed APR in retrospect; attendance and minutes attached)

## 1. Immunization Programme Support (ISS, NVS, INS)

### 1.1 <u>Immunization Services Support (ISS)</u>

Were the funds received for ISS on-budget in 2008? (Reflected in Ministry of Health and/or Ministry of Finance budget): Yes/No

If yes, please explain in detail how the GAVI Alliance ISS funding was reflected in the MoH/MoF budget in the box below.

If not, please explain why the GAVI Alliance ISS funding was not reflected in the MoH/MoF budget and whether there is an intention to get the ISS funding on-budget in the near future?

Yes it was reflected in the Ministry of Health budget. It was indicated as recurrent expenditure support from GAVI for immunization programme in Southern Sudan.

#### 1.1.1 Management of ISS Funds

Please describe the mechanism for management of ISS funds, including the role of the Inter-Agency Co-ordinating Committee (ICC).

Please report on any problems that have been encountered involving the use of those funds, such as delay in availability for programme use.

#### GAVI funds ISS are managed as follows:

- 1. The funds are deposited into the national bank (Bank of Southern Sudan) in the official Ministry of Health account number, in full knowledge of the Ministry of Finance, in the Government of Southern Sudan. The funds were requested by the EPI Dept after the ICC endorsement of and released to the States based on detailed microplans earlier submitted and reviewed.
- 2. The ISS funds are requested on a written letter, with attached micro plans and requested items by the EPI Manager, addressed to the Undersecretary of Ministry of Health, through the Director General of Primary Health Care Ministry of Health in the Government of Southern Sudan (both to approve before process of release).
- 3. The signatories for release of GAVI ISS funds are a/ The Undersecretary MoH/GoSS b/ the National EPI Director (Manager) c/ the Director General for Administration and Finance MoH/GoSS, d/ the Director for Administration and finance MoH/GoSS.
- 4. After the approval, transfer process is completed by the Accounts Department of MoH/GoSS to individual States MOH Bank Accounts.

#### Main problems:

- 1. Delay of funds transfer, due to administrative exigencies.
- 2. Delay in the process of transfer of funds from the Bank of Southern Sudan to the States.
- 3. Some banks branches in the states lack cash liquidity to pay the transferred money, which leads to delay in cash release and hence implementation of planned activities is delayed. Implementation started in May 2008.
- 4. Delays in liquidation of funds released to some states; this leads to delay in additional disbursement.

#### 1.1.2 Use of Immunization Services Support

In 2008, the following major areas of activities have been funded with the GAVI Alliance Immunization Services Support contribution.

Funds received during 2008 **1,019,125**Remaining funds (carried over) from 2007 **1,019,125**Balance to be carried over to 2009 **1,068,081**

NB: APR first version sent on 16<sup>th</sup> May, had addition errors in funds utilization. Total spent in 2008 was \$970,169 leaving a balance of \$48,956 brought forward to 2009, so there was no underutilization of ISS monies.

#### 1.1.3 ICC meetings

How many times did the ICC meet in 2008? 3 times

Please attach the minutes (DOCUMENT N°.....) from all the ICC meetings held in 2008 specially the ICC minutes when the allocation and utilization of funds were discussed.

Are any Civil Society Organizations members of the ICC: **Yes** if yes, which ones?

#### **List CSO member organisations**

- 1. Representative of traders Union.
- 2. Representative of Faith Based Organizations
- 3. Representative from the Press.

Please report on major activities conducted to strengthen immunization, as well as problems encountered in relation to implementing your multi-year plan.

#### Major Activities:

- 1. Training of Health of Health workers on micro planning and RED approach
- 2. Implementation of fixed and outreach services
- 3. Selected implementation of accelerated routine immunization in locations without vaccinators and health facilities.
- 4. Maintenance of Cold Chain at State and County levels.
- 5. Repair of EPI vehicles at Central and states.
- 6. Hiring of transport for implementation of outreach services and supervision
- 7. Supportive Supervision from Central to States and peripheral levels
- 8. Review meetings

#### Problems:

- 1. Delayed receipt of GAVI funds. Funds received end of 2007 and outreach services commenced in May, 2008, therefore slowed down pace of implementation of all activities.
- 2. Polio outbreaks interrupted all planned routine activities as successive campaigns were held throughout Southern Sudan
- 3. Insufficient numbers of trained health workers to cover all fixed and outreach sites
- 4. Very few number of functional health facilities. This meant extra personnel to conduct outreach services.
- 5. Difficult terrains
- 6. Insecurity
- 7. Some counties did not have transport for hire even when there was cash.

#### Attachments:

Three (additional) documents are required as a prerequisite for continued GAVI ISS support in 2010: **N/A** 

- a) Signed minutes (DOCUMENT N°......) of the ICC meeting that endorses this section of the Annual Progress Report for 2008. This should also include the minutes of the ICC meeting when the financial statement was presented to the ICC.
- b) Most recent external audit report (DOCUMENT N°......) (e.g. Auditor General's Report or equivalent) of **account(s)** to which the GAVI ISS funds are transferred.
- c) Detailed Financial Statement of funds (DOCUMENT N°......) spent during the reporting year (2008).
- d) The detailed Financial Statement must be signed by the Financial Controller in the Ministry of Health and/or Ministry of Finance and the chair of the ICC, as indicated below:

## 1.1.4 Immunization Data Quality Audit (DQA)

## 2. Vaccine Immunization Financing, Co-financing, and Financial Sustainability

#### Table 2.1: Overall Expenditures and Financing for Immunization

The purpose of Table 2.1 is to guide GAVI understanding of the broad trends in immunization programme expenditures and financial flows.

Please the following table should be filled in using US \$.

	Reporting Year 2008	Reporting Year + 1	Reporting Year + 2
	Expenditures	Budgeted	Budgeted

--------------------	--

Please describe trends in immunization expenditures and financing for the reporting year, such as differences between planned versus actual expenditures, financing and gaps. Give details on the reasons for the reported trends and describe the financial sustainability prospects for the immunization program over the next three years; whether the funding gaps are manageable, challenge, or alarming. If either of the latter two is applicable, please explain the strategies being pursued to address the gaps and indicate the sources/causes of the gaps.

Funds for routine vaccines (traditional vaccines) and accessories come through UNICEF/donors, mainly Japanese funding. These funds are delayed and as such, planned/forecast vaccines/accessories are not always all procured each year and Govt does not provide funds for vaccines and accessories procurement.

Only GAVI funds are used for implementation costs at County, Payam and Central levels. Govt does not provide funds apart from selected health staff payment at central and state levels. Funds for payment of health workers remain a critical challenge to be able to step up immunization coverage with the available GAVI funds.

MOH-GoSS has made budgetary provision for lower level PHC workers salaries in 2009 but yet to be implemented due to delay in getting a nominal roll and health mapping done in all the states. As soon as this exercise is concluded, it is hoped that immunization activities will increase.

#### **Future Country Co-Financing (in US\$)**

Please refer to the excel spreadsheet Annex 1 and proceed as follows:

- ➤ Please complete the excel sheet's "Country Specifications" Table in Tab 1 of Annex 1, using the data available in the other Tabs: Tab 3 for the commodities price list, Tab 5 for the vaccine wastage factor and Tab 4 for the minimum co-financing levels per dose.
- Then please copy the data from Annex 1 (Tab "Support Requested" Table 2) into Tables 2.2.1 (below) to summarize the support requested, and co-financed by GAVI and by the country.

Please submit the electronic version of the excel spreadsheets Annex 1 (one Annex for each vaccine requested) together with the application.

Table 2.2.1 is designed to help understand future country level co-financing of GAVI awarded vaccines. If your country has been awarded more than one new vaccine please complete as many tables as per each new vaccine being co-financed (Table 2.2.2; Table 2.2.3; ....)

Please refer to the excel spreadsheet Annex 1 and proceed as follows:

- ➤ Please complete the "Country Specifications" Table in Tab 1 of Annex 1, using the data available in the other Tabs: Tab 3 for the commodities price list, Tab 5 for the vaccine wastage factor and Tab 4 for the minimum co-financing levels per dose.
- ➤ Please summarise the list of specifications of the vaccines and the related vaccination programme in Table 3.1 below, using the population data (from Table B of this APR) and the price list and co-financing levels (in Tables B, C, and D of Annex 1).
- Then please copy the data from Annex 1 (Tab "Support Requested" Table 1) into Table 3.2 (below) to summarize the support requested, and co-financed by GAVI and by the country.

Please submit the electronic version of the excel spreadsheets Annex 1 together with the application.

## 4. Health Systems Strengthening (HSS)

#### Instructions for reporting on HSS funds received

- 1. As a Performance-based organisation the GAVI Alliance expects countries to report on their performance this has been the principle behind the Annual Progress Reporting –APR-process since the launch of the GAVI Alliance. Recognising that reporting on the HSS component can be particularly challenging given the complex nature of some HSS interventions the GAVI Alliance has prepared these notes aimed at helping countries complete the HSS section of the APR report.
- 2. All countries are expected to report on HSS on the basis of the January to December calendar year. Reports should be received by 15<sup>th</sup> May of the year after the one being reported.
- 3. This section only needs to be completed by those countries that have been approved and received funding for their HSS proposal before or during the last calendar year. For countries that received HSS funds within the last 3 months of the reported year can use this as an inception report to discuss progress achieved and in order to enable release of HSS funds for the following year on time.
- 4. It is very important to fill in this reporting template thoroughly and accurately, and to ensure that prior to its submission to the GAVI Alliance this report has been verified by the relevant country coordination mechanisms (ICC, HSCC or equivalent) in terms of its accuracy and validity of facts, figures and sources used. Inaccurate, incomplete or unsubstantiated reporting may lead to the report not being accepted by the Independent Review Committee (IRC) that monitors all APR reports, in which case the report might be sent back to the country and this may cause delays in the release of further HSS funds. Incomplete, inaccurate or unsubstantiated reporting may also cause the IRC to recommend against the release of further HSS funds.
- 5. Please use additional space than that provided in this reporting template, as necessary.

<u>Table 4.3 note:</u> This section should report according to the original activities featuring in the HSS proposal. It is very important to be precise about the extent of progress, so please allocate a percentage to each activity line, from 0% to 100% completion.. Use the right hand side of the table to provide an explanation about progress achieved as well as to bring to the attention of the reviewers any issues relating to changes that have taken place or that are being proposed in relation to the original activities.

Please do mention whenever relevant the **SOURCES** of information used to report on each activity. The section on **support functions** (management, M&E and Technical Support) is also very important to the GAVI Alliance. Is the management of HSS funds effective, and is action being taken on any salient issues? Have steps been taken to improve M&E of HSS funds, and to what extent is the M&E integrated with country systems (such as, for example, annual sector reviews)? Are there any issues to raise in relation to technical support needs or gaps that might improve the effectiveness of HSS funding?

about. Any reprogramming should be highlighted here as well.

This section should act as an executive summary of performance, problems and issues linked to the use of the HSS funds. This is the section where the reporters point the attention of reviewers to <b>key facts</b> , what these mean and, if necessary, what can be done to improve future performance of HSS funds.

<u>4.7 note:</u> In general, HSS funds are expected to be visible in the MOH budget and add value to it, rather than HSS being seen or shown as separate "project" funds. These are the kind of issues to be discussed in this section
a) Are funds on-budget (reflected in the Ministry of Health and Ministry of Finance budget): Yes/No If not, why not and how will it be ensured that funds will be on-budget? Please provide details.
