	Venezuela

<sup>1</sup> Based on 2024 World Bank classifications released July 2025.

<sup>2</sup> In this document, the term 'countries' is used to denote both countries and economies. Gavi's engagement does not imply the expression of any opinion whatsoever on the part of Gavi concerning the legal status of any country, territory or area or of its authorities, or concerning the delimitation of frontiers or boundaries.

<sup>3</sup> Additional former Gavi-eligible countries will be added as they transition out of Gavi support.

<sup>4</sup> Includes all World Bank-classified lower middle-income countries, IDA-eligible economies and Venezuela (following Gavi Board approval to treat Venezuela as MICs-eligible in the absence of a World Bank income classification). Additional never Gavi-eligible countries will be added in the event they are classified as lower middle-income.

<sup>5</sup> Classified as lower middle-income as per 2023 World Bank data.

<sup>6</sup> Classified as lower middle-income as per 2024 World Bank data.
