IFFIm/GFA restructuring

Debbie Adams

GAVI Alliance Board meeting
Washington, DC, USA, 12–13 June 2012
Background

- Original rationale for GFA no longer relevant
- Removing GFA will have no effect on existing grant agreements
- Generates savings of up to US$ 1.4 million in direct costs per year
- IFFIm donors have supported the restructuring
What the restructuring means to GAVI

- GAVI will enter into future grant agreements with IFFIm donors
- GAVI will immediately assign any future grant agreement with IFFIm donors to the IFFIm company
- IFFIm raises funds on these long-term grant agreements in the international capital markets; IFFIm’s purpose is to provide predictable and flexible funding to GAVI
Next steps

- The Secretariat, IFFIm donors, the IFFIm Board and the World Bank are currently reviewing and discussing drafts of the amended legal documents

- We anticipate that GFA and IFFIm Boards will approve the amendments by September 2012

- The amendments also need to be unanimously approved by all of the IFFIm donors and the World Bank

- We anticipate that the process can be completed by Q4 2012
Recommendation:

The Board is recommended to:

- **Approve** GAVI entering into any new grant agreements with the IFFIm donors once the Finance Framework Agreement is amended to remove the GFA from the IFFIm structure; and

- **Approve** the immediate assignment to the IFFIm Company of any new grant agreements entered into between GAVI and the IFFIm donors
