Section A: Introduction

- This report provides the Board with an overview of the activities of the Governance Committee (GC) since the Board last met in June 2017.

- The GC met by teleconference on 22 June 2017 and 26 July 2017 and had an in-person meeting in Geneva on 5 October 2017. During the June and July meetings, discussions focused on the reappointments of both the Board Chair and the CEO.

- During the October meeting, in addition to some routine business such as Board and Committee nominations, the Committee discussed a number of topics in the context of the continued implementation of the recommendations of the 2016 Board and Committee self-evaluation. They agreed on a number of recommendations, some of which have already been circulated to the Board for no objection consent, and others which are being put forward to the Board at its November meeting for consideration.

- The GC will meet on 27 November 2017, preceding the Board meeting, and it is expected that further recommendations will be put forward to the Board for its approval at the November meeting.

- The GC Chair report is attached in the form of a presentation as Annex A and the GC recommendations to the Board are attached as Annex B.

- Consensus that preferred model for Board appointments should remain Ministers of Health/Senior Public Officials
- Need to consider flexibilities for Board committee participation

- Expect to complete exercise by June 2018

• Independent expertise familiar with Gavi’s organisational structure being sought for guidance

Board and Committee Self-Evaluation

- GC members agreed exercise had been a good learning experience
- Important that Board is fully engaged and informed on process and proposed recommendations
- Important to ensure sufficient time for implementation of agreed recommendations
- Longer timeline required to execute thorough evaluation and proposed to do less frequently e.g. every three or four years
- Discussed difficulties with finding a consultant that fully appreciates the structure and dynamics of an organisation like Gavi
- Issues related to trust and behaviours remain to be fully explored
