
Gavi, the Vaccine Alliance strategy 2021 - 2025

Vision
To save lives and protect people’s health by increasing equitable and sustainable use of vaccines

Mission 2025
- Missed communities, first priority: Prioritize children missing out on vaccination including among migrants, displaced and other vulnerable populations
- Gender focused: Identify and address gender-related barriers to promote immunization equity
- Country-led, sustainable: Bolster country leadership to sustainably deliver and finance immunization
- Community owned: Ensure community trust and confidence in vaccines by engaging communities in planning, implementation and oversight of immunization
- Differentiated: Target and tailor support to national and subnational needs including fragile contexts

Goals
1. Introduce and scale up vaccines
2. Strengthen health systems to increase equity in immunisation
3. Improve sustainability of immunisation programmes
4. Ensure healthy markets for vaccines and related products

Objectives
A. Strengthen countries’ prioritisation of vaccines appropriate to their context
B. Support countries to introduce and scale up coverage of vaccines for prevention of endemic and epidemic diseases
C. Enhance outbreak response through availability and strategic allocation of vaccine stocks

Vision
- Child mortality reduction
- Lives saved
- Future DALYs averted
- Equity indicator

Goals
- People (male & female) vaccinated with Gavi support across the life course
- People (male & female) vaccinated with Gavi support against outbreak-prone diseases
- Economic benefits unlocked

Objectives
- Integrated: Strengthen immunisation as a foundation for integrated primary health care to reach underserved communities in support of universal health coverage
- Adaptive, resilient: Help countries leverage immunisation to address the challenges of climate change, Global Health Security, antimicrobial resistance and other major global issues
- Innovative: Identify and leverage innovative products, practices and services to reach everyone with immunisation
- Collaborative, accountable: Collaborate across stakeholders to achieve the SDGs in a transparent, coordinated and accountable manner

Methods
- Secure long-term predictable funding for Gavi programmes
- Ensure global political commitment for immunisation, prevention and primary health care

Use evidence, evaluations and improved data for policies, programmes and accountability
- Leverage the private sector, including through innovative finance mechanisms and partnerships
