---

<sup>1</sup> Please refer to section 18 for additional information on IPV presentation.

<sup>2</sup> This is the entire duration of the Programme.

<sup>3</sup> This is the total amount endorsed by Gavi for 2015 to 2018.

<sup>4</sup> This is the consolidated amount for all previous years. Annual amounts prior to 2017 include the costs of injection safety devices. Annual amounts for 2017 onwards include only vaccine costs and freight.

<sup>5</sup> This is the amount that Gavi has approved.
14. Co-financing obligations: Gavi’s usual co-financing requirements do not apply to IPV. However, Gambia is encouraged to contribute to vaccine and/or supply costs for IPV.

15. Operational support for catch-up campaigns: Not applicable

16. Additional reporting requirements:

<th>Due dates</th>
</tr>
</thead>
<tbody>
<tr>
<td>To prepare for the annual procurement of vaccines, Country shall submit the following information in May each year: number of children to be vaccinated, vaccine stock levels including buffer stock, wastage rates, any proposed changes in presentation or minimum co-financing levels and vaccines received.</td>
<td>15 May 2018</td>
</tr>
<tr>
<td>In accordance with applicable Gavi processes, Country shall report on programmatic and financial performance.</td>
<td>To be agreed with Secretariat</td>
</tr>
</tbody>
</table>

17. Financial clarifications: Country shall provide the following clarifications to Gavi*:

Not applicable.

*Failure to provide the financial clarifications requested may result in Gavi withholding further disbursements

18. Other conditions:

Due to unprecedented demand for IPV and the challenges to scale up production capacities, the global IPV supply remains constrained and is unlikely to meet all country requirements in the short term. As a consequence, the actual presentation and number of doses shipped may differ from those specified in this Decision Letter. In order to mitigate these circumstances, you are strongly encouraged to optimally manage available supply and follow recommendations and guidelines from WHO and UNICEF to reduce vaccine wastage.

If Gambia envisages a switch in product presentation, it is encouraged to incorporate elements for both IPV presentations in your initial introduction preparations, in order to minimise the need for later interventions and facilitate the switch. In those circumstances, in principle, no product switch grant will be provided to Gambia.

On behalf of Gavi
